WDAA WORLD SHOW

The 2021 WDAA World Championship Show will require qualification. By competing in this show, you are automatically qualified for the live world show.

WDAA HORSE LIFETIME POINTS AND AWARDS PROGRAM

Scores earned at this show count ½ points toward WDAA Horse Lifetime Points & Awards Program. It is optional to participate in this program. For more information, or to enroll in the program, please visit www.westerndressageassociation.org/wdaa-horse-lifetime-points-and-awards-program/

Video Rules

You may videotape your ride as soon as you have your sign. Remember, the judge can only score what they can see, so follow these guidelines carefully!

IMPORTANT! Show Management will review all submissions to ensure adherence to the rules as stated above. If a test does not comply with the rules, Show Management will contact the exhibitor immediately via email or phone. The exhibitor will have 48 hours to resubmit their test from the time of the notification. Please take all guidelines into consideration when preparing your test submissions.

- Use arenas that are as close to regulation size as possible and be sure letters are set appropriately to be viewed by the judge. Cones with large letters on them and poles on the ground to delineate the corners are acceptable. Large letters taped on walls work as well.
- To insure that only videos taped for this competition are used, videos of tests <u>must be</u> unedited from start to finish, including the sign and equipment check. They must be one continuous recording with the horse and rider visible at all times.
- Videos must be filmed in LANDSCAPE orientation.
- The test must be videoed from behind C, where the judge would normally be seated. Try and set the camera 4-5' off the ground. It makes the geometry easier for the judge to see.
- Prior to beginning the test, the PREFILLED CLASS INFORMATION SIGN (including the DATE filmed) must be videoed for at least 5 seconds. Remove the sign just before the ride begins. The videographer can hold the sign then move back to behind the camera or hold the sign in front of the camera at arm's length while also holding the camera. There must be no edits between when the sign is shown and the rider appears.
- Keep the horse in frame, paying close attention to the near corners. On the far side, you can zoom in for clearer judging visibility. The horse and rider must be visible at all times through to the end of the equipment check.
- Make sure to keep the letters in the frame that are elements of the test being performed.
- As soon as the test is finished, the camera must slowly circle the horse and rider showing all equipment and attire, including spurs and whip if used. If the videographer is unable to enter the arena, at G the rider may turn the horse slowly, wait five seconds, then turn slowly to show the second side, and wait an additional 5 seconds to complete filming of the equipment. <u>Standard Equipment Rules apply to all divisions.</u>
- Following equipment check, the rider will dismount and show that two fingers can fit between the cavesson or bosal and the horse's cheek. <u>Western Division Only</u>: When dismounted, drop the bit so it can be evaluated. NOTE: Hold the bridle so as not to obscure the curb strap or curb chain. Demonstrate that the curb strap or chain is flexible and is at least ½ inch wide. Make sure the judge can see all parts of the bridle, including bit and reins clearly. Exceptional riders are exempt from this portion.
- Standard equipment rules for the division ridden must be used.
- WDAA equipment and apparel rules apply to the Western Dressage division. However, clean, neat, and tidy schooling show dress for qualifier shows is allowed for dressage and eventing dressage.
- The test pattern may be called, but Coaching during the test is not allowed (unless specified).
- Videos must be in focus.
- The natural background sound for the test must be audible. Tests with no sound will not be accepted.
- Bridle and saddle pad numbers are not allowed.
- Only video links from YouTube will be accepted.

Arena Sizes

Be aware that some test call for a small arena and others for a large arena. Below are the dimensions needed for you to set up your arena at home.

In the LARGE arena:

• Place a mark on the long rail at the following distances from the corner:

M:	6m =	19.7'
R:	18m =	59.1'
B:	30m =	98.4'
P:	42m =	137.8'

- F: 54m = 177.2'
- Place your letters 2 feet from the rail as these marks
- Repeat on the other long side

In the SMALL arena:

• Place a mark on the long rail at the following distances from the corner:

- Place your letters 2 feet from the rail as these marks
- Repeat on the other long side
- C is 10m (or 32.8') in on the short side. Place that letter 2' from the rail as well.

WESTERN DRESSAGE ASSOCIATION®

C OF AMERICA

GUIDELINES FOR GAITEDHORSES

There are a significant number of gaited horse breeds (about 30 in North America), all with gaits specific to their breed. In Western Dressage competition, the gaited horse will perform a saddle gait in place of the jog. The saddle gait selected should be the gait in which the horse is balanced and athletically comfortable performing. The saddle gait is a 4 beat lateral or diagonal gait, timely and evenly performed. The tempo, rhythm and foot falls of the gait they choose to show must not change throughout the test. The true four beat gait the horse performs, should be able to be ridden in a working, lengthened, free and collected manner as the Western Dressage test calls for.

All rules can be found in the USEF Rule Book under Western Dressage.

WD106 Saddle Gait

The saddle gait has a noticeable increase in cadence from the working walk. Excessive speed or slowness will be penalized.

- 1. In lieu of a jog, gaited horses perform gaits of various rhythms and footfalls. The gaited horse will perform a saddle gait in place of the jog.
- 2. The saddle gait may be either a lateral or diagonal gait, timely and consistently performed. The tempo, rhythm and foot falls of the gait the rider chooses to perform must not change throughout the test. The gait the horse performs, should be able to be ridden in a working, lengthened, free and collected manner as the Western Dressage test specifies.
- 3. The quality of the saddle gait is judged by general impression, i.e. the regularity and rhythm of the steps, the cadence and impulsion. This quality originates from the horse having a supple back and well engaged hind quarters, and the ability to maintain the same rhythm and natural balance in all variations of the saddle gait.
 - a. Collected Saddle Gait. The horse, remaining "on the bit", moves forward with the neck raised and arched and showing clear self-carriage. The head approaches the vertical position and a light contact is maintained with the mouth. The hocks are well-engaged and must maintain an energetic gliding impulsion, enabling the shoulders to move more freely. Although the horse's steps are shorter than in the other saddle gaits, elasticity and cadence are not lessened.
 - b. Working Saddle Gait. With an energetic, regular consistent rhythm; the horse must go forward with consistent and elastic steps. The back must be relaxed and the shoulders free, while there is an obvious push from the hindquarters. The hind legs actively glide under the horse. The horse must show proper balance and maintain light contact with the bit. The horse's nose must be on or slightly in front of the vertical.
 - c. Lengthening of Stride. This is a variation of the Working saddle gait; the horse covers more ground while maintaining the same tempo, consistent rhythm as in the Working saddle gait. Speeding up is a fault.
 - d. Free Saddle Gait. The Free saddle gait will show moderate lengthening of stride and frame compared to the Working saddle gait. Without hurrying, the horse goes forward with clearly lengthened steps, with impulsion from the hindquarters and uphill balance. The rider allows the horse to carry the head a little more in front of the vertical than at the Collected and the Working saddle gait. The horse's neck is "out", down and forward, with the nose slightly in front of the vertical, with a loose rein and the poll at approximately the same height as the wither (the neck is level). The steps should be consistent, the whole movement balanced and unconstrained, while maintaining a consistent rhythm.
